

SKH Lam Woo Memorial Secondary School  
F.1 Language Arts  
Uniform Test

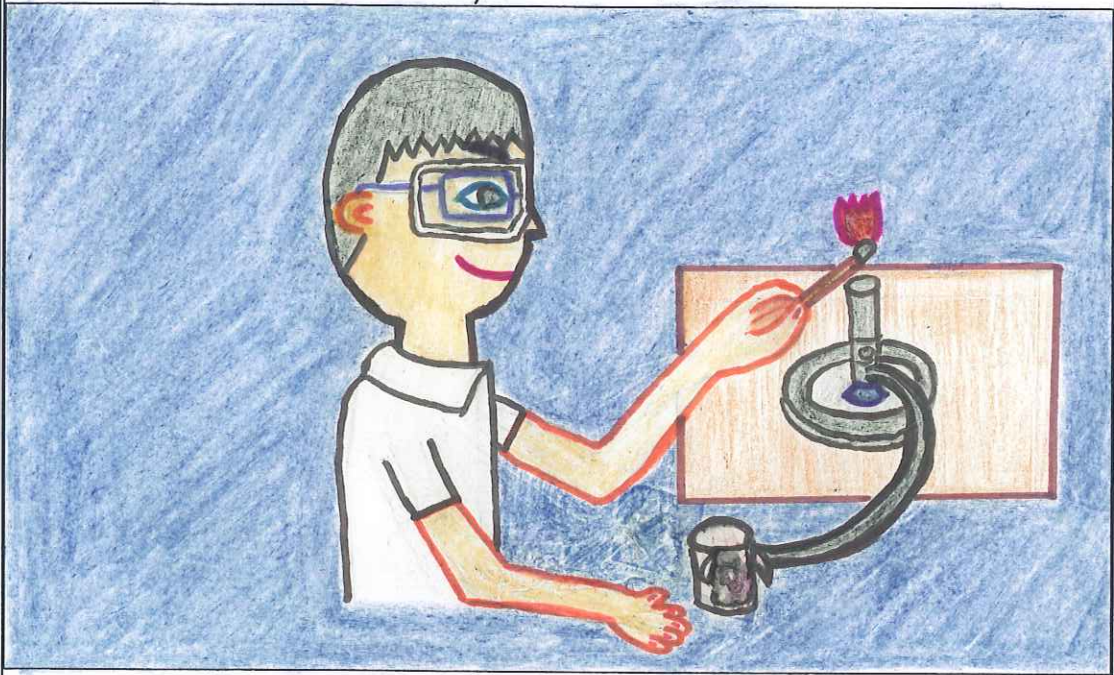

Name: Lee Chun Ho, Johnny ( 37 ) Class: F.1E Total Marks: 34 /40

Situation:

You have been studying in Lam Woo for two months. Which area/aspect of school life do you like the most? Could it be your classmates/teachers/the extra-curricular activity you join or an interesting subject?

You want to capture the aspect of school life you like the best by drawing it below and write a description about it (about 60 words) so that you will remember it later in life.

*My School and I*

I entered Lam Woo in 2007 and the thing I like the best is an interesting subject, science. Among the five different areas of science, I like chemistry the most. It is because the experiments are interesting. For example, when I mixed the solutions, the colour of the solutions changed. I thought it was magic. During the experiment, I felt very excited. I hope I can be a scientist in the future.
