Situation:

You have been studying in Lam Woo for two months. Which area/aspect of school life do you like the most? Could it be your classmates/teachers/the extra-curricular activity you join or an interesting subject?

You want to capture the aspect of school life you like the best by drawing it below and write a description about it (about 60 words) so that you will remember it later in life.

I entered Lam Woo in 2007 and the thing I like the best is to study in
1E class. The teachers of my class are very kind and the
 lessons is interesting. I make many friends in my class and
 we'll not feel bored in the lessons because we
 sometimes make funny things!
 I enjoy to study here. It is my happiest time
 studying in 1E.
