Paper V

Name: Choy Chun Lap (22)

Class: 3D

After the argument with Milo, who has said something rude about Teddy's father, Teddy bursts into tears. Chris, Vern and Gordie try their best to calm him down. This scene describing their friendship is the most impressive to me. When Teddy is hurt by the cruel words of Milo and suddenly cries, Chris sits down next to him and takes one of his hands. Then, Chris starts to say something to stop him crying. Vern and Gordie also say something good about Teddy's father. These actions can show the deep friendship between them.

I remember that I have had a very good friend in my primary school life. We shared snacks and played games together. One day, he suddenly cried because he had been scolded by his parents when they knew he had got a very bad result in the exam. I encouraged him to get a better result next time and calmed him down. Then, he felt better and stopped crying.
